

Hall A Business Meeting Dec 16

Nominees for Hall A membership
Involved in GDH - proposed by
JP Chen.

Yunxiu Ye - UTSC
Yi Jiang - UTSC
Hai-Jiang Lu - UTSC
Shuhua Zhou Atomic Energy Institute

** Unanimously approved

Bodo Reitz - review process, 4 proposals in for 6 GeV. Thanks to
all the reviewers.

3 proposals accepted as Hall A expt.
05-014 - EMC in deuterium
05-015 - Target Single Spin Asymmetry
05-007 - DIS parity
Solenoid for DVCS

Schedule was too tight - need more time in the future, at least
one week for reviews.

Kees - Annual report - Submissions by Feb 1 - completion by March
1.

(Too) many proposals to PAC.
Only A proposals should be submitted!

Discussion of collaboration meeting and PAC meeting time. Some
would like it either earlier or in January to avoid conflict with
finals (for most univ. people). In general, anytime in Dec.-Jan.
will be bad for some people.
There was support to have PAC deadline in summer later (August),
to avoid the conflict with end of classes in summer. Kees noted
that 2005 PAC will be in August.

Discussion of adding 1 or 2 day physics meeting associated with
user meeting. Generally supported, probably better in winter,
since summer is already loaded with meetings.

There was support to have an invited talk(s) by some of the new
theorists at summer meeting.
