# Young's modulus measurement

Metal wire hooks hang one piece rectangle scintillator

$$E = 5.2 \times 10^4 \text{ MPa} (f = 490 \text{ Hz})$$

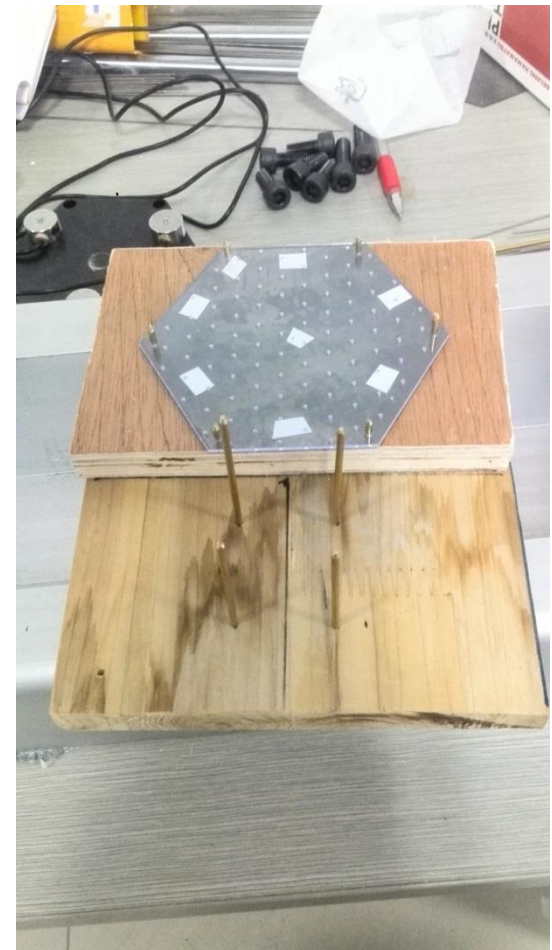

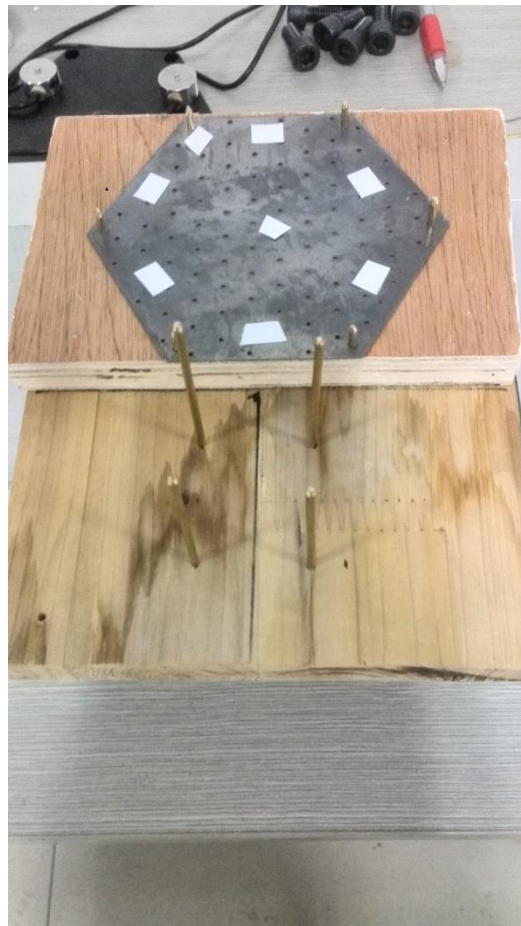

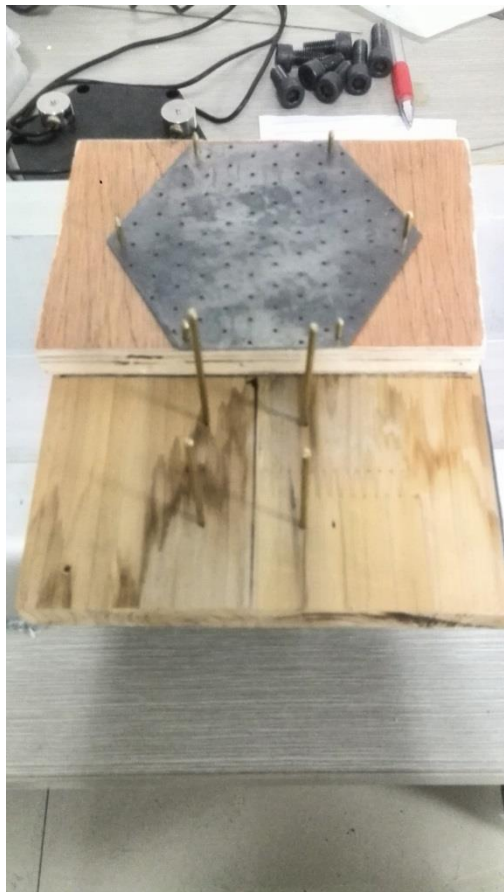

From baike.baidu.com

Polystyrene(PS, 聚苯乙烯)  $E = 3000\text{-}3600 \text{ MPa}$

# Cosmic ray telescope setup

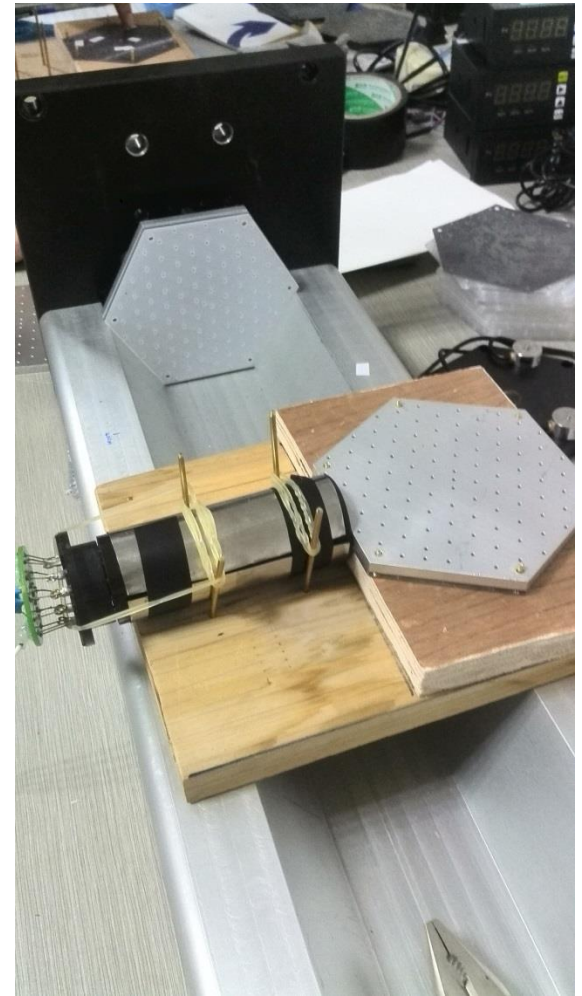

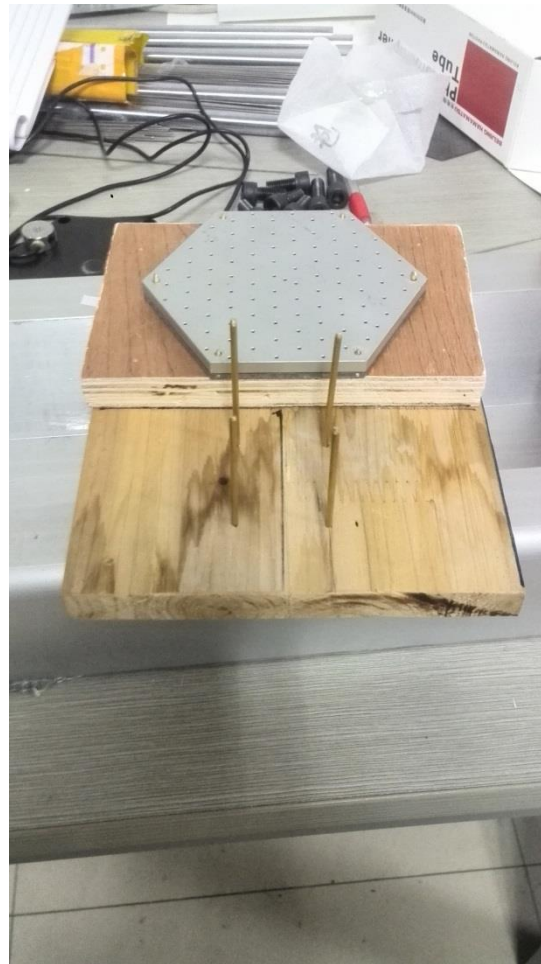

- Few modules for scintillator test

# Cosmic ray telescope

- Few modules for scintillator test

# Cosmic ray telescope

---

Two pre-shower scintillators at the bottom and top as trigger detectors.

5 shashlyk scintillators in 5 floors.

Test results will be available soon.

**THANKS !**
