DATA TRANSMITTAL

TO: A. Saha, J. LeRose **DATE:** 20 Dec 2001

FROM: C.J. Curtis **Checked:** **# :** A726

DETAILS:

Below are the results from the superharp survey carried out on December 10th, 2001. The values shown represent the difference in millimeters from the ideal position of each fiducial. A positive X value is to the beam left, a positive Y is too high.

Superharps	**DX**	**DY**	**locations in mm (+ is beam left)**
SH1H01A	-0.02	0.18	
SH1H01B	0.05	0.15	
SH1H01C	0.06	0.13	
SH1H02A	-0.12	0.18	
SH1H02B	-0.08	0.20	
SH1H02C	-0.06	0.27
