

Minutes: SBS Meeting October 10, 2012

Attendees: Bogdan Wojtsekhowski, John LeRose, Mark Jones, Alexandre Camsonne, Carlos Ayerbe Gayoso, Seamus Riordan, Nilanga Liyanage, Gordon Cates, Yang Wang, Charles Perdrisat, Evaristo Cisbani, John Annand, Doug Higinbotham, Thia Keppel

- 1) Bogdan shows us a very thin ribbon copper conductor. Can sustain very high current density, but doesn't have much cross-section.
- 2) John gives talk on the Program Management Plan (PMP) and its implications for us
 - a) See [link](#)
 - b) At end we discuss the upcoming Hall A Collaboration meeting and our allotted time.
 - i) Presently one hour near the end of the last day
 - ii) Bogdan thinks we need more time
 - iii) Seamus gives the perspective from the CC's point of view
 - iv) Gordon suggests that if we have one hour, it should be 20 minutes on Physics and two 20 minute introductions to subsystems with emphasis on where help is needed
 - v) Seamus agrees to work on the schedule with Patricia
 - (1) Several possibilities discussed
 - (2) More time will be difficult
 - vi) Discussion continues in terms of the broader need to keep the Hall A Collaboration vibrant and alive into the future
