

Minutes: SBS Meeting February 13, 2013

Attendees: Alexandre Camsonne, Bogdan Wojtsekhowski, Nilanga Liyanage, Seamus Riordan, Gordon Cates, Mitra Hashemi Shabestari, John LeRose, Mark Jones, Brian Quinn, Sergey Abrahamyan

- 1) Gordon Cates gives talk on SBS/A1n Polarized ^3He Target Update:
 - a) See [link](#)
 - i) Reviews current plan
 - ii) Expected performance
 - iii) Magnetic field effects (used larger coils than in the plan, but larger target cell too, speculates the effects may be offsetting...)
 - iv) Metal Cell components
 - v) Summary
 - b) For more information see the Hall A Annual Report (circulating in draft form, should be available soon from the Hall A webpage)
- 2) John LeRose briefly discusses the monthly report to DOE
 - a) See [link](#) for a draft of this month's report
