

Minutes: SBS Meeting May 23, 2012

Attendees: John LeRose, Kees de Jager, Jason Sharpe, Mahbub Khandaker, Charles Perdrisat, Bogdan Wojtsekhowski, Mark Jones, Bob Michaels, Vina Punjabi

- 1) Bogdan tells us about his calorimeter contacts
 - a) 1900 units, 4/module = 475 modules
 - b) 100 modules were sent to ITEP, now nobody knows where they are.
 - c) Bogdan has various people looking for them
- 2) JLab lead glass that has been lent to Brookhaven
 - a) Original agreement was to return the lead glass mid-summer 2014
 - b) The experiment has been delayed, they want to keep it another year (to mid-summer 2015)
 - c) Not a problem
- 3) Bogdan mentions that Hall B has a calorimeter made from large scintillator bars
 - a) Luminosity capability is questionable
 - b) Mark Jones will look into it and report in 2 weeks
- 4) Re Dubna HCAL deal, Bogdan says Dubna people want a formal document spelling out what we want.
- 5) Electron arm discussion:
 - a) Mark Jones tells us about his GEANT studies (see [link](#) for details)
 - b) Bogdan makes presentation about electron arm calorimeter trigger
 - i) See [link](#)
 - ii) Bottom line is he wants a Monte-Carlo done
