Attendees: John LeRose, Bogdan Wojtsekhowski, Charles Perdrisat, Mahbub Khandaker, Mark Jones, Gordon Cates, Evaristo Cisbani, Seamus Riordan, Nilanga Liyanage

1. Bogdan wants us to spread the news that the SBS PMP has gotten an oral “ready to proceed” from DOE (see [link](#))
2. Bogdan leads discussion of SBS contribution to the Hall A Collaboration meeting, June 7-8.
  - a. Outline of what we would like to present
    - i. Review of SBS capabilities (Gordon Cates tentative)
    - ii. Experiment updates
      1. GEp5 (Vina Punjabi ?)
      2. Neutron Form Factors (Brian Quinn ?)
      3. A1n (Nilanga Liyanage? Or Todd Averett?)
    - iii. Technical Updates
  - b. Want a quarter day session preferably on the 1<sup>st</sup> day. John LeRose will explore with CC.
3. Web pages for SBS?
  - a. Mark Jones has setup an SBS Wiki
    - i. Go to the Hall A Wiki, go to experiments, go to SBS
    - ii. Suggestion is to have experiments subsection and equipment subsection (equipment often spans more than one experiment)
4. Bogdan Wojtsekhowski reviews his talk at the Caraguatatuba – QCD Conference ([link](#))
5. News re Hera-B calorimeter, due to a shift in plans for FAIR, it moves out to 2018, it should be easier for us to get the calorimeter (we should be done with it and can give it back before 2018).
6. Bogdan asks for suggestions for topics of future meetings
  - a. Gordon suggests rotating through major subsystems
  - b. Keep meetings to <1 hour
  - c. Nilanga can give a talk on GEM’s maybe June 13.
