

Minutes: SBS Meeting July 24, 2013

Attendees: John LeRose, Carlos Ayerbe Gayoso, Mahbub Khandaker, Bogdan Wojtsekhowski, Alexandre Camsonne, Gordon Cates, Adam Sarty, Brian Quinn, Andrew Puckett, Nilanga Liyanage

- 1) Mahbub Khandaker makes a presentation on the Coordinate Detector for SBS
 - a) See [link](#)
 - b) Mahbub will make document based on his presentation which we'll present to Thia, who in turn, if she's alright with it, will pass it on to Rolf
- 2) Gordon expresses concern re BigCal and its alternatives. We need Charles Perdrisat for this discussion
- 3) Adam Sarty brings up the question of seeking external commercial philanthropic support for some SBS related projects. He contacted someone who indicated it wasn't completely crazy. E.g. for a pitch to Renaissance, we would want a short written proposal specifying what we want. The question at the end was do we want to do this?
- 4) Bogdan Wojtsekhowski asks about agenda for future weekly meetings
 - a) Generally want reports on various subsystems (Polarized ^3He target, Monte Carlo studies, program/project status)
 - b) Re A1n we need to solidify our ideas for the designers.
