

Minutes: SBS Meeting Sep 24, 2014

Agenda: Silicon microstrips - Guido Urciuoli, 3He target -- Gordon Cates

Attendees: Adam Sarty, Alexandre Camsonne, Charles Perdrisat, Freddy Obrecht, John Annand, Mitra Hashemi Shabestari, Mark Jones, Seamus Riordan, Carlos Ayerbe Gayoso, Mahbub Khandaker, Brian Quinn, Gregg Franklin, Nilanga Liyanage, Vladimir Nelyubin, Bogdan Wojtsekhowski, Evaristo Cisbani, Guido Urciuoli, Konrad Aniol, Vahe Mamyan.

1) Guido Urciuoli. Bob Michels asked how the efficiency is measured. Guido answered that finding out which strips are dead allows to measure efficiency. Bogdan asked what is the next plan. Next step is to repeat a new test in Rome. If everything is OK, go to production, need to make 4 modules. Brian asked what is the size of the plane. Guido said plane was $10 \times 10 \text{ cm}^2$.

2) Gordon Cates was not online.

3) Konrad asked if any work done to produce pseudo-data so people can make develop analysis routines. Bogdan told that all was done during development of proposals. This will be useful for developing for analysis chain. Nobody is working on this now.
