
Minutes: SBS Meeting September 30, 2015

Agenda: Gregg - Update on HCAL-J status
Rachel - Update on NINO cards

Attendees: Brian Quinn, Gregg Franklin, Rachel Montgomery,
Mark Jones, Mitra Shabestari, Vladimir Nelyubin,
Carlos Ayerbe, Danning Di, Dasuni Adikaram,
Seamus Riordan, Andrew Puckett, Bogdan Wojtsekhowski.

- Gregg - HCAL-J status
- completed 2 modules (made the milestone)
 - completed cutting light guides
 - CMU received all modules and shells
 - 36 modules delivered to JLab and the plan is to make 4 more shipments (66 modules in each shipment)
 - remaining work:
 - subassembly design
 - need adapters for PMTs
 - Gregg on sabbatical at JLab for academic year
- Rachel - Update on NINO cards at Glasgow
- presents the results of various measurements and tests on NINO threshold
 - On-going projects:
 - investigations into NINO boards are on-going
 - currently performing final testing of version G boards in Glasgow
 - hodoscope bar tests on-going (using version G boards)
- Bogdan - Suggests to discuss the preparation for the review.
- Seamus - He and Andrew are making progress regarding simulations.
- Andrew - Interface work is complete and they are working on low threshold simulations
He will contact Al Gavalya about shielding.
- Mark - Trying to have the first draft of talks by October 21 and have the dry run ready by November 4th.
