

SBS Weekly Meeting
August 24, 2016 - 11ET

Agenda -
Brian Quinn, HCal Electronics and ECal Trigger
Francesco Tortorici

Participants
Riordan, Quinn, Cornejo, Jones, Francesco Tororici,
Nelyubin, Wojtsekhowski, Camsonne, Shahinyan, Puckett, Eric Fuchey
Freddy Obrecht, Liyanage, Franklin

Brian - HCal Electronics and ECal Trigger

Overview of ECal trigger summing and electronics available
New naming conventions and association maps for coincidence

Presented long cabling paths (HV and signal) - needs to be determined
Possibly 90m
Around the pivot is problematic
GEMs need shortest path with HV and signal

Is going to borrow and test NINO card from Glasgow

Francesco - Update to last week's CDET presentation

Nilanga - Wanted numbers of radiation doses in shielding hut for GEMs

Eric Fuchey joins the collaboration from UConn
