

Instruction for HRS Runs online analysis during PVDIS test runs, June 15-17.

★ logon to `adaq@adaql<4-10>` (Do not replay on `adaql1`, `adaql2` or `adaql3`)

★ password: see whiteboard

★ Type "gotest"

★ **For Left HRS runs**

➤ Type `./analyzer onlana_L.C`;

➤ Type in the run number and analyze 50k events;

➤ Use `.x online.C+("detectorL")` to check detectors;

★ **For Right HRS runs**

➤ Type `./analyzer onlana_R.C`;

➤ Type in the run number and `-1` to analyze all events;

➤ Use `.x online.C+("detectorR")` to check detectors;

➤ Use `.x online.C+("pvdissR")` to check PVDIS DAQ-related histograms;

➤ Use `.x pid/replay.C` to analyze PID efficiencies.
