

# Alpha version of rastercut library

Location:

[/w/halla-sfs62/g2p/pzhu/work/raster/rastercut](http://w/halla-sfs62/g2p/pzhu/work/raster/rastercut)

Example script:

test.c

Rootlogon.C

Method:

Use calibrated slow raster info for both fastbus and happex, use happex info for charge

Welcome to test, please contact me for any questions

Will present the result next week, happy sheep year!
