

HGC Gas System

- Gases: C_4F_8O , C_4F_{10} , CO_2 , N_2
- Pump and purge to clean out tank
- Fill to desired pressure
- Systems protected against overpressure with software/hardware interlocks and pop-off valves
- Initial gas inventories on-site now
- Gas bottles mounted on SHMS carriage at floor height
 - dual bottle manifold for primary gas
- Pressures monitored & logged
