

Cable PMT divider → PCB board

Quotes requested:

	Parts	Labor
US vendor	20 USD	60 USD
French vendor	17 EUR	10 EUR

Labor for 1100 cable assembly should be 2-3 months work (1 person)

Possible options:

- Can cables be done at Jlab (detector group/J. Segal)?
- Manpower within the NPS collaboration?
- Outsource cables in France and request Jlab to take some other part (but will probably be coax signal cables from PCB (SMA) to top of the box (LEMO))
