

ADDENDUM – PhBr Lead Wires

Receiving a copy of this addendum in the operating manual indicates the liquid helium (LHe) level sensor(s) provided, have been constructed with phosphor bronze (PhBr) lead wires.

The operating manual refers to standard Teflon wire colors for sensor connections. However, the phosphor bronze wire color scheme differs from the Teflon wire. Refer to the table below for proper connections.

LHe Sensor Wiring	Function
Red	I+
Green	V+
Natural	V-
Navy/Black	I-
