

- Standard Arduino compatible
- SD card slot
- Micro SD card slot
- Grove extension module connectors
- Card slot selector

- Large 0.1"\*0.1" pitch prototyping area
- A variety of through-hole sizes to fit most parts
- Standard Arduino compatible
- 3.3 volt, 5 volt, and ground power rails
- USB\_B port
- Breadboard style prototyping area
- Dual ISP pin headers for easy programming and stacking
