## 2 N 1 UNIVERSAL BASKET RACK™ Golf Cart Assembly Model 200

**Figure A**

**Figure B**

**Figure C**

### Golf Cart Assembly Instructions and Diagrams

1. Insert the 20 molded End Caps into open ends of the tubes. Use small light rubber or metal hammer. Tap lightly to seat the end caps.
2. Tighten the nuts and bolts so they are snug. If too tight the rack will not fold easily for storage.
3. Attach the two Side Bars to the two 1" Bottom Support Bars. See Figure A.
4. Attach the four 3/4" Support Bars to the Bottom Support Bars. See Figure A.
5. Attach the two Top Cross Support Bars to the two Side Bars. See Figure A.
6. Place rack on the Golf Cart Top and locate the best mounting holes for each Foot allowing them to rest flat on the Roof Top at the widest point.
7. Remove Rack from Top, and attach the four plastic Feet with the angle side outwards. See Figure A.
8. Clean the roof surface area where each Foot Pad will rest. Next, place a Rubber Foot Pad onto the bottom of each Foot Support, and place the rack onto the Cart Top and center.
9. Loop strap around the far ends of the four Sidebars of the rack, and then around the Cart Top Support Bracket keeping the Buckle near the Side Bar. See Figure C. Careful not to twist strap.
10. Thread end of strap through the Double Buckle. See Figure B.
11. Alternately tighten each strap until rack is secure to the top. The Rack should not move in any direction when secured properly!

### SAFETY PRECAUTION RECOMMENDATION

After traveling a short distance, stop and check to see that all the straps are secure.

## WARNING

**Golf Cart Tops cargo not to exceed distributed weight of 50 lbs.  
Coolers not recommended.**

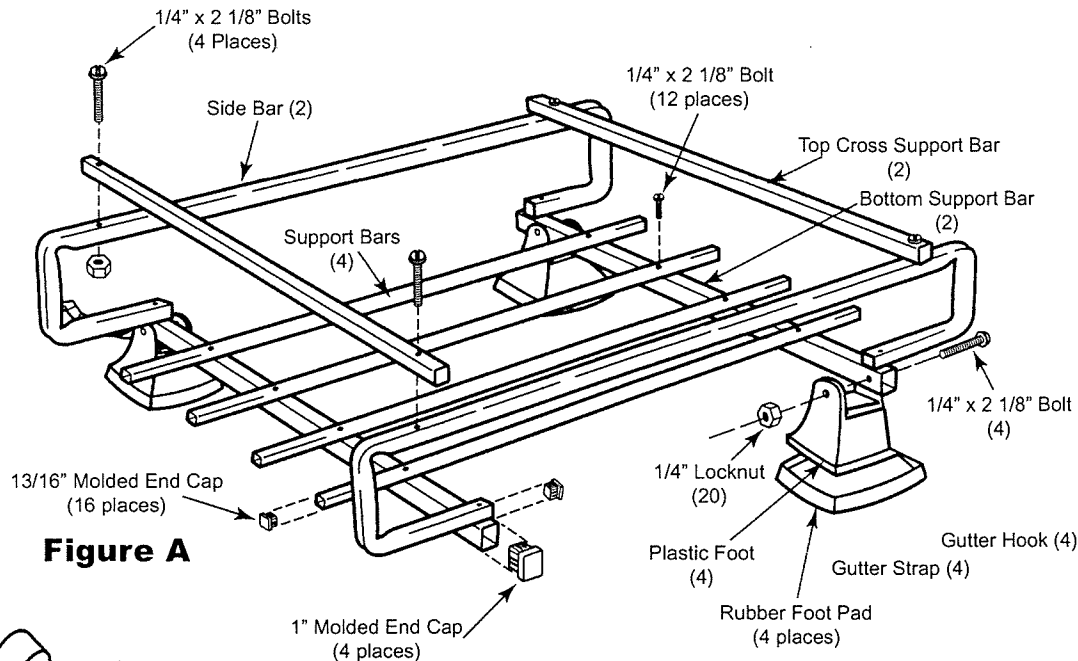

The attachment of this product is extremely important and beyond the control of CarriesAll™ Corporation.
