**CAUTION:** This product must be operated in accordance with the instructions. Failure to do so could result in overheating, failure of the product, and/or the risk of electrical shock.  
Keep away from any form of magnetic media. This unit will erase magnetic media.

### OPERATING INSTRUCTIONS:

**NOTE:** This product must not be operated for more than one minute continuously. After using for up to one minute do not operate for thirty minutes to allow unit to cool.  
To use, plug unit into receptacle near TV or computer monitor to be degaussed. Move as far as possible from set (minimum of 6 ft.) and press switch. Holding the coil so that the plane of the coil is parallel to the front of the tube, move coil in a circular motion while approaching the face of the screen. Continue the circular motions passing over the complete surface of the screen until you are within inches of the screen. While continuing this motion move slowly away from the screen until you are as far away as possible, then release switch.

**WARNING:** Do not use if it is hot to the touch. Allow unit to cool for thirty minutes before using.
