Dear John,

   Thank you for your interest in IRISS products! Here is your quote for the VPFR-100. I have also taking the liberty to give pricing for the VPFR-100-M (Metal Cover) and the VPT-100, which is our new Transparent Polymer also with a metal cover. I have also included all datasheets fro the product as well as a picture of our new offering...PRIVATE LABEL! For a one time set up fee per window size of $300 you can get your company Logo in the cover but we can only do that in Metal covered windows. Also, our polymer is the only FDA approved window insert in the market.
   Please let me know if I can answer any other questions for you.

Thank you and have a safe day!!!
