BLP-5

Blue Laser Pointer - Executive Presenter

Blue - 450nm (Sapphire Series)

BLP-5-B (Matte Black)

BLP-5-S (Brushed Silver)

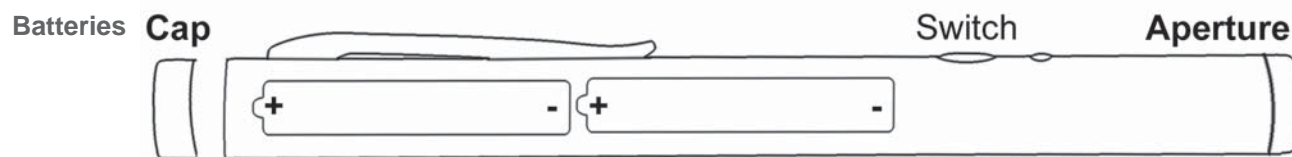

Design & Operation

The Z-Bolt® Sapphire Presenter (BLP-5) is very cool. We have placed our new design blue laser diode in a beautiful casing suitable for an executive presentation or gift. Don't brief with green - be the first in your office - go true blue!

The BLP-5 features true blue 445~455nm blue laser light (not 405nm violet/purple) The new design blue laser module operates on 2 pcs AAA alkaline batteries (included). Projects a brilliant sapphire blue laser beam and dot. Visible beam at night - dot only during daytime hours. Three (3) hours constant on operation.

The Z-Bolt® Sapphire Presenter is the product of new design technologies and manufacturing efficiencies. Blue laser is eye safe - ANSI Class 3R and FDA Class IIIa. The BLP-5 ships in attractive satin lined travel & carry case with nylon blue Z-Bolt® lanyard and accessory lanyard loop end cap.

Remove Cap Switch. Insert two AAA batteries (+) Tip toward cap. Replace Cap. Do not attempt to remove aperture; voids warranty.

Box Contents - Features

Special Design 450nm Blue Laser Diode
Diode Type - InGaN Semiconductor
Matte Black or Brushed Silver Finish
Power Source - 2 pcs AAA Alkaline
User Guide & Specification Card
Satin & Felt Lined Carry Case
Accessory End Cap & Ring
36" Z-Bolt® Lanyard

Laser Specifications

Length 5.70 in. x Diameter 0.51 in. (144 mm x 13 mm)
Wavelength (Color) - 450 nm (Sapphire Blue)
Diode Operating Life - 3,000 to 5,000 hours
Diode Type - InGaN Semiconductor
Output Power - 3.0~5.0 mW
Range (Night) - 2 Miles
FDA Safety Class - IIIa
ANSI Safety Class - 3R
Warranty - 1 Year
