

# MAGNET / POLE TESTER

☐ MS - 47PT

☒ MS - 47PT1 (with audible sound)

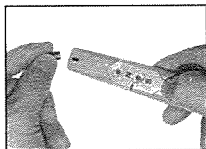

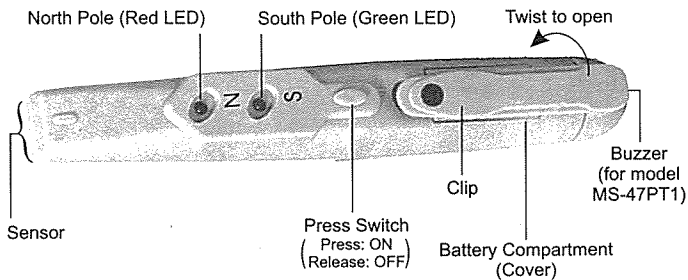

**MS-47PT/MS-47PT1**, a new invention of instrument to find North or South pole of magnetic field.

## ●● BATTERIES REPLACEMENT :

- Type : LR44; 157; AG13; A76; L1154 etc. (1.5V x 4pcs.)

## 👉 HOW TO REPLACE THE BATTERIES :

Twist the clip either left or right hand side and pull the cover out, replace the fresh batteries with 'NEGATIVE' at left side and then place the cover back.

Depress and hold down the switch, place the sensor near to the magnet. 'Red LED' indicates 'North pole' or 'Green Led' indicates 'South pole'.
