

# SBS APV/Backplanes tests

- Tested 37 APV cards and 3 12-slot backplanes since yesterday
  - 24 APV and 2 12-slot backplanes cards are tested good with DAQ and rest need further tests
  - One INFN APV with connector repaired did not discover through DAQ and low level lib test - **need further investigation**
- Additional APV cards and new MPDs will be tested this week
- APV/Backplane inventory update is ongoing
- Once we test all APV cards in question (112) we will send bad cards to Paolo
